Bachelor of Engineering (Civil), from National Institute of Technology Karnataka, Surathkal (81%) – Duration: 2000-04

### **WORK EXPERIENCE**

#### **At Tetra Tech – From June 2008 till date**

- Project Management Consultant & Transaction Advisor for Municipal Solid Waste Management in Ranchi and Dhanbad (Jharkhand) – *Ongoing*  
My responsibility is to monitor the on-site and off-site activities. I have been involved in the preparation of Technical Reports more like Detailed Project Reports detailing out the entire SWM system proposed with equipments, vehicles, treatment methods, sanitary land filling, cost estimates, financial framework, institutional framework, capacity building etc.
- Preparation of Detailed Project Report for Solid Waste Management in Panaji (Goa) – *Completed & Approved*  
I was the main person managing the site activities such as meetings with client, primary waste surveys, data collection etc. and off-site activities such as data collation, data feeding, data presentation, report writing, preparation of cost estimates, getting product specifications from various vendors, overseeing the report preparation etc.
- Preparation of Detailed Project Report for Solid Waste Management in Leh (J&K) under JnNURM – *Completed & Approved*  
I was part of the team involved in site visit to Leh, Ladakh for a duration of 15 days. Conducted data collection from the ULB there, overseen the primary waste survey done at houses, restaurants, hotels, conducted waste surveys at main markets, collected information on existing secondary storage infrastructure, meetings with officials of ULB. I was also involved in off-site works such as collation of data, feeding of data, data presentation, preparation of cost estimates, designing of sanitary landfill, report writing etc..
- Preparation of Detailed Project Reports for Solid Waste Management in Damoh and Katni (Madhya Pradesh) under UIDSSMT – *Completed*  
I was part of the team involved in site visits to Damoh and Katni for a duration of 15 days together. Overseen the primary waste survey work, meetings with officials of ULB, Reconnaissance Survey of the towns, secondary data collection from various sources. I was also involved in off-site works such as data collation, data feeding, data presentation, report writing, Sanitary Landfill design, preparation of cost estimates for various facilities etc.

- Preparation of Conservation Plan for twin lakes of Mokokchung (Nagaland) – *Completed*  
I was part of the team to visit Mokokchung town for a duration of 3 days. I conducted reconnaissance survey of both the lakes, collected water samples for chemical and biological tests, interacted with the officials of the town. I was also involved in the preparation of drawings pertaining to various proposals, existing condition, treatment schemes etc, report writing, preparation of cost estimates for various facilities/interventions, design of waste stabilization pond as per the existing norms and standards etc.
- Three phases of monitoring and preparation of Ground water monitoring report for surroundings of GE's defunct plant at Nadiad (Gujarat) – *Completed*  
I was involved in the Ground water monitoring at GE Nadiad defunct plant continuously for 3 phases spread over one and half years. Two phases were post monsoon monitoring a one was pre-monsoon monitoring. I have overseen the survey of 32 wells including open wells and bore wells spread over at a radius of 5 Km around the defunct plant. The sampling had taken almost 2 days to complete. I was also involved in the off-site works such as collation of data, photographs, data feeding, data presentation, report writing, drawings etc.
- Information Education and Communication (IEC) on Solid Waste Management in 7 towns of Haryana and 8 towns of Uttar Pradesh under YAP-II – *Completed*  
I was part of the team involved in visiting towns such as Faridabad, Gurgaon, Jagadhri and Yamuna Nagar in Haryana for conducting reconnaissance survey regarding the existing solid waste management system, meetings with the officials of the ULBs and public representatives, secondary data collection etc. In case of Uttar Pradesh IEC. I was part of the team involved in on-site works such as reconnaissance surveys of Mathura, Vrindavan and Noida, secondary data collection regarding existing SWM system, primary surveys of houses, shops, overseeing primary waste survey work, meetings with officials of the ULBs, public representatives such as Mayor, Chairman, Councilors etc. I was also involved in data collation, data feeding, data presentation, report writing etc.
- Visited ICI industry's unit at Panki site, Kanpur for conducting training for employees on BS OHSAS: 180001  
I was part of the team involved in visiting ICI industry's Plant at Panki, Kanpur to give training to employees on BS OHSAS 18001. I had more of a supportive role to play.

#### **At SPA – Environmental Planning – 2006-08**

- Thesis on “*Environmental Management Plan for Guruvayur Temple Precincts*” (Kerala)
